- Yes, quite often
- Sometimes
- Hardly
- Never

Edinburgh Postnatal Depression Scale

Scoring:

Response categories are scored 0, 1, 2, 3 according to increased severity of the symptoms. Items marked with an asterisk (*) are reverse scored (i.e. 3, 2, 1, 0). The total score is calculated by adding together the scores for each of the ten items.

A score of 12+ indicates the likelihood of depression, but not its severity.
